# Electrical Grids Protection

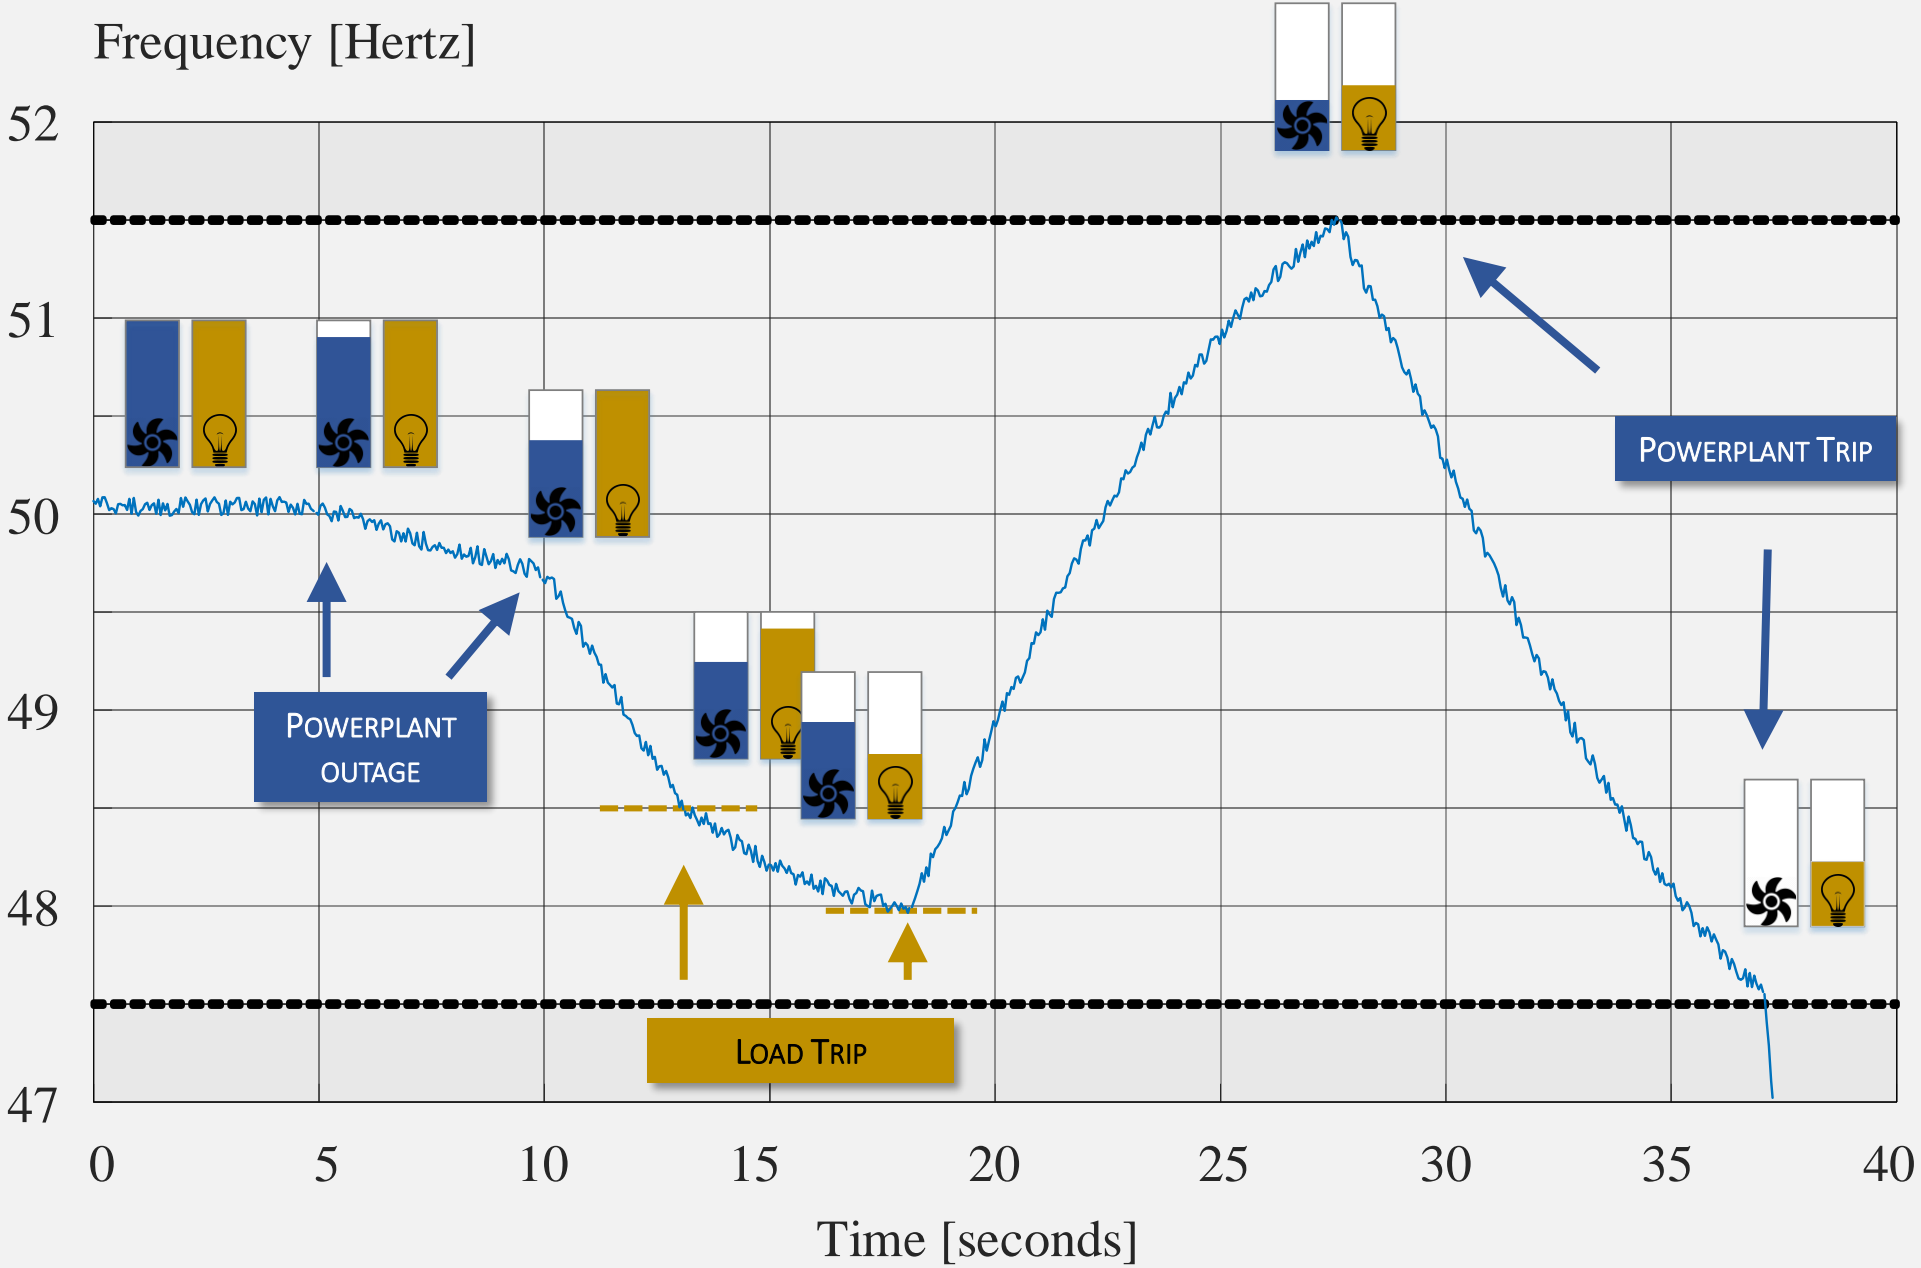

**URBAN RUDEŽ**, PHD

urban.rudez@fe.uni-lj.si

University of Ljubljana  
Faculty of Electrical Engineering  
Laboratory of Electric Power Supply

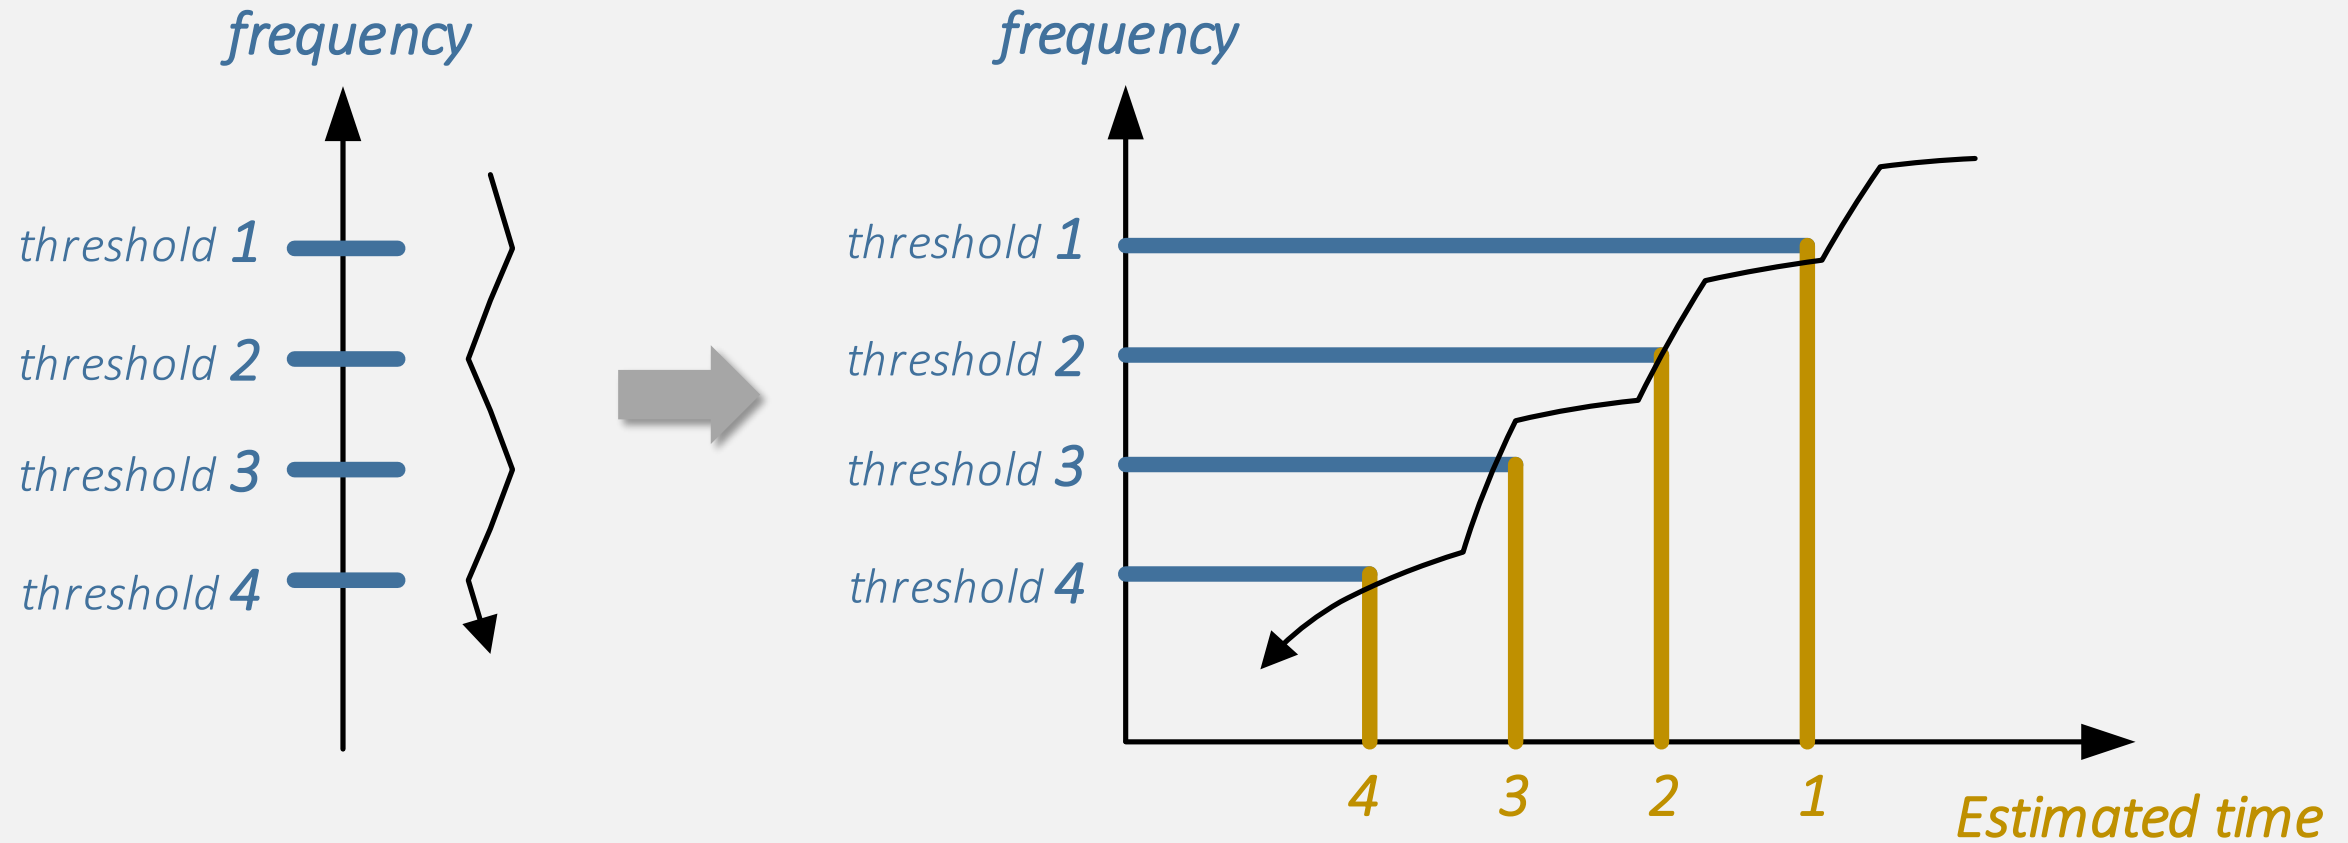

# What is it all about?

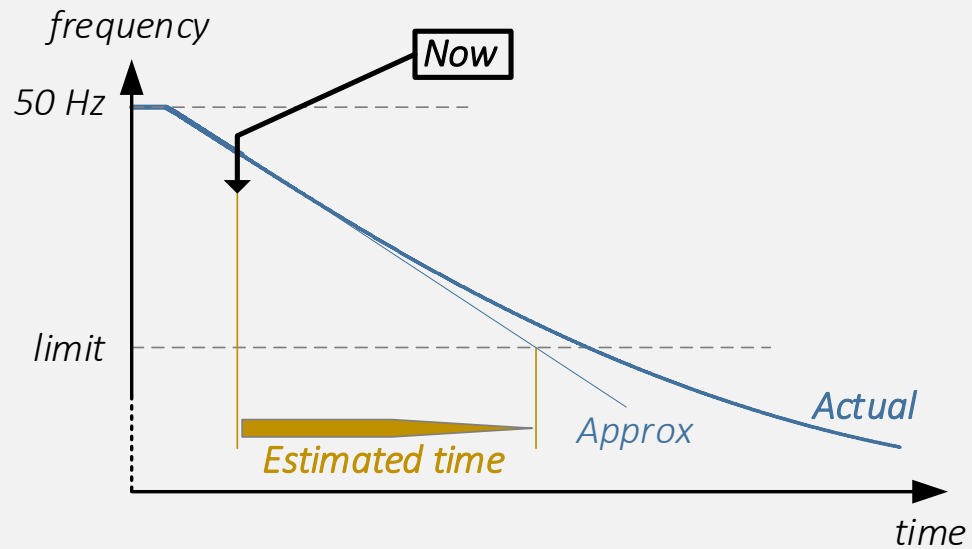

BLACKOUT

# A step towards solution

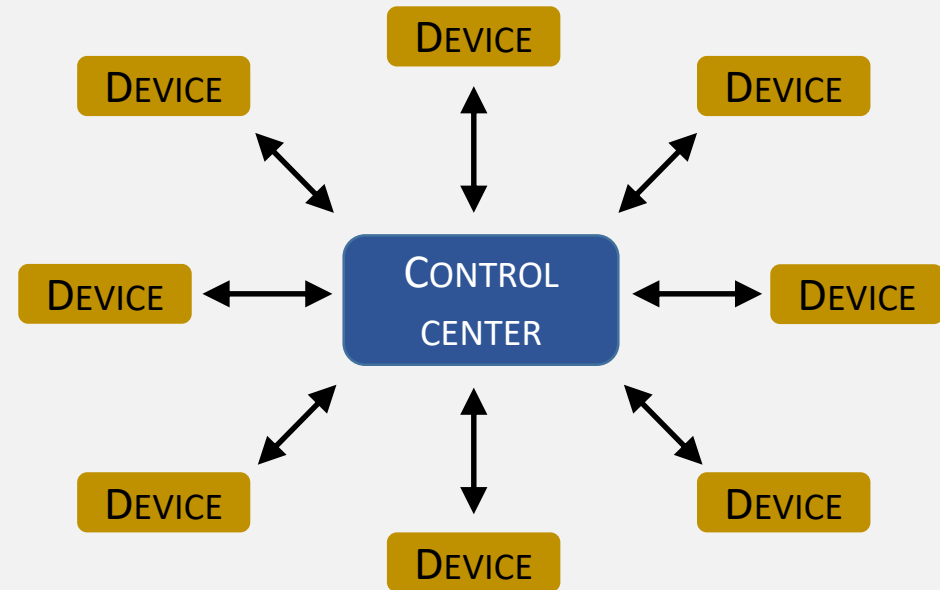

# Competitive advantage

- No retrospective actions

- No centralization

# The target users & beneficiaries

- **Protection-device manufacturers**
  - supplemental functionality of devices
  - become early developer of such functionality
- **System operators**
  - benefitting from final use
  - increasing reliability of the electrical system

# What are we looking for?

- Licensing of patent rights
- Our role as power-system dynamics consultants

*Keep your lights on!*
